

Upper Assendon Farm — Land & Buildings Reference (Working Draft)

M J Hunt & Son — Upper Assendon Farm, Stonor, Henley-on-Thames, Oxfordshire RG9 6HE

SBI 106227532 · CPH 33/227/0030

Document owner: James Hunt · Created: 24 September 2026 — for the 1 Oct 2026 Red Tractor audit

This is a diagrammatic land reference built from the Farm Hub's Field & Scheme Register (25 Aug 2026), grouped by holding/agreement rather than plotted to real scale. It is NOT a substitute for a scaled, surveyed map — pair it with (or replace it with) an aerial photo, an Ordnance Survey extract, or a Rural Payments Online map export before the audit if a true-to-scale plan is wanted.

Key facts for the map

- No watercourses or ditches anywhere on the farmed land — confirmed by James Hunt, 24 September 2026. No water-proximity exclusion zones apply.
- SFI/Countryside Stewardship margins on this holding are arable field margins, not watercourse buffer strips.
- Boreholes/wells: none currently recorded in the Hub. If any private water source, well or borehole is used anywhere on this land, mark its location on the final map before the audit.
- CPH number 33/227/0030 is displayed at the Upper Assendon Farm entrance (confirmed done).

Buildings and holding locations to mark on the map

- Upper Assendon Farm (Stonor, Henley-on-Thames RG9 6HE) — home farm, office, main cattle handling/crush, isolation pen, pesticide store, farm entrance. Visitor log book (drafted) to be printed and placed here — still outstanding.
- Shenley Wood Farm — young stock housing (bull calves/steers, 6–12 months), second crush.
- Coxlease Farm, Fawley — approx. 60 fattening cattle (20–30 months). FLAGGED: the Red Tractor membership certificate notes record Coxlease Farm as resigned from SAI Global/RT membership, but the Manure Management Plan describes it as within the Upper Assendon Farm/RT inspection scope. These two records contradict each other — needs resolving with James/SAI Global before the audit, since it affects whether these cattle are in scope.
- Mobile crush — no fixed site, used across all locations as needed.

Still to do before treating this as the final map

- Resolve the Coxlease Red Tractor membership scope question above.
- Confirm whether any wells/boreholes exist anywhere on the farmed land and mark them if so.

- Swap this grouped reference for a true-to-scale aerial photo or OS map extract with field boundaries and buildings drawn on, if a precise plan is wanted for the inspector.
- Print and post the CPH sign and visitor log book at the Upper Assendon Farm entrance.
